

Battery Analytics: Build or Buy

Every battery-enabled company needs the right data infrastructure and software tools to effectively design, manufacture, operate, and finance battery products. Invest in a battery data solution designed by a team of battery industry veterans, data scientists, and software experts with experience in enterprise-scale data platforms to avoid incurring unnecessary costs and setbacks. Compare the benefits of buying versus building.

	Build: Develop an internal solution	Buy: Adopt the Voltaiq EBI SaaS Platform
Who?	<ul style="list-style-type: none"> Your overworked IT team Battery engineers who have better things to do Overpriced consultants 	<ul style="list-style-type: none"> Voltaiq’s team of battery industry veterans, PhD battery scientists, and experts in enterprise-scale data platforms
What?	<ul style="list-style-type: none"> A solution tailored to your specific needs, until those needs change Maintenance headaches for years to come 	<ul style="list-style-type: none"> The only commercial EBI platform, continuously enhanced with best practices from battery leaders across sectors
Where?	<ul style="list-style-type: none"> Only the parts of your organization with the most acute pain Data will be locked in silos, inhibiting enterprise value 	<ul style="list-style-type: none"> Enterprise-wide collaboration and value spanning R&D, product development, in-field use, and finance Hosted in the cloud, public, private, or internal
When?	<ul style="list-style-type: none"> Two to five years to assemble a team, implement a system, & begin to see results On-time delivery is the exception, not the rule 	<ul style="list-style-type: none"> Up and running in as little as a week Typical onboarding takes 30 days including training Immediate value for your teams
Why?	<ul style="list-style-type: none"> You don’t trust a service provider to understand your needs 	<ul style="list-style-type: none"> You take your batteries seriously and want the best from the market leader
How Much?	<ul style="list-style-type: none"> Total cost is a moving target Budget bloat is the norm Maintenance and improvements not included 	<ul style="list-style-type: none"> Transparent, fixed annual subscription pricing Maintenance and improvements included Lowest total cost of ownership
